

ionuv™ sanitizer UV wand USER MANUAL

tzumi®

Introduction & Features

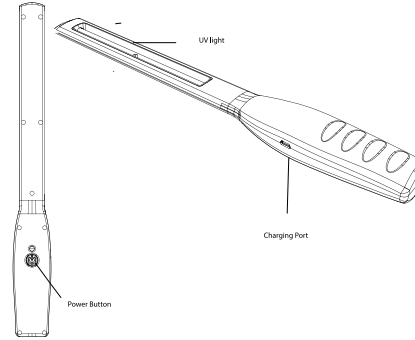

The ionuv handheld UV sanitizer wand is a large handheld sanitizer that kills germs and bacteria in seconds without the hassle of cleaning wipes or detergents. The handheld sanitizer disinfects an array of items including gadgets, iPads, laptops, remote controls, doorknobs, toilet-covers, steering wheels, toys, bedsheets and more. Utilizing powerful UV technology, it significantly kills microscopic germs, mold, and dust mites effectively on all surfaces without leaving harmful residues or odors. Micro USB charging allows you to conveniently charge it from any USB power source.

Package Contents:

- Sanitizing Wand
- USB Cable
- Manual

Product Overview and Functions

- Laboratory proven to kill and eliminate up to 99.9% of bacteria and germs in as little as 30 seconds on any surface.
- Kills germs on keyboards, remote controls, gadgets, and electronics in seconds without residue.
- Sanitizes doorknobs, bathrooms surfaces and other household items quickly and easily without chemicals or irritants.

Setting up and Using the Sanitizer Wand

NOTE:

- DO NOT EXPOSE SKIN OR EYES DIRECTLY TO THE WAND UV LIGHT
- AS A SAFETY MEASURE IF THE WAND UV LIGHT IS TURNED UPWARDS IT WILL AUTOMATICALLY TURN OFF TO AVOID CAUSING INJURY TO THE EYES.

- To turn on the sanitizing wand press the power button for 2 seconds
- The UV light will turn on and the indicator light will illuminate indicating the wand is on
- Begin by holding the sanitizing wand as close as possible and no more than one-half inch above the object's surface.
- Move slowly across the object make sure the entire surface gets 30 seconds of direct disinfecting UV light
- To turn the wand off press the power button on the back of the wand

To Charge the Wand

- Plug the provided micro USB cable into the charging port, plug the USB end into a USB power source
- The indicator light will flash red while charging. When the wand is fully charged the indicator will be solid red.

Troubleshooting

The wand will not turn on

- Make sure that the wand is facing downwards not upwards.
- Ensure that the Wand sanitizer is charged.
